

Cathedral of the Holy Cross—Liturgical Furnishings

BOSTON, MA

Working with Elkus Manfredi Architects, EverGreene's Design Team developed designs for the altar of sacrifice, ambo, and baptismal font for the Cathedral of the Holy Cross in Boston, MA. We were also responsible for restoring the damaged high altar. The designs were all created to harmonize with the historic liturgical furnishings designed by Patrick Keely. We closely collaborated with Elkus Manfredi and Henninger's to create entirely custom and new liturgical finishes for the cathedral.
