

Lotte New York Palace Hotel

NEW YORK, NY

In 2015, the New York Palace Hotel completed an all-encompassing \$140-million renovation project. EverGreene designed and created a custom, unique mural series to depict aspects of the metropolitan lifestyle for the Palace's second floor lobby.

Given complete artistic control over the design and aesthetics of the murals, EverGreene artists designed and crafted vibrantly rich and visually opulent murals that convey New York-specific scenes, which span the history of the city and tie in with the color scheme of the lobby.
