

Old Grandview Ranch

SARATOGA, CA

The Old Grandview Ranch in Saratoga, CA is a 22 room French Norman revival estate that houses one of the largest art collections in the West.

Consistent with the theme of the ranch's loggia, EverGreene produced murals for the ceiling that were designed in a free interpretation of the French Renaissance style of Versailles and Charles Le Brun, and used classical mythological subjects such as Bacchus and Ariadne.

EverGreene also designed painted ornament for the surrounding dome borders and panels to complete the decor. Our muralists painted the murals on canvas in EverGreene's New York Studio prior to our installing them on site.
