

Palazzo Hotel

LAS VEGAS, NV

EverGreene pioneered a new approach to églomisé, from the French term meaning glass gilded, for this mirrored landscape illuminated by ambient light at the Palazzo Tower in Las Vegas.

An original mural was hand-painted in our New York studio and transferred to glass, which was gilded and mirrored by our skilled craftsmen. The glass panes measure 32 1/2 inches high. The effect is reminiscent of stained glass and glistens from all vantage points.
