

## Port St. Lucie Public Art Assessment

PORT ST. LUCIE, FL

In 2022 EverGreene was contacted by the City of Port St. Lucie to assess 29 of their public artworks. Each work of art was assessed and any prior documentation was reviewed by our conservators. A conditions assessment report was created for each work of art, including object record number, geo-tagged location, dimensions, artist, dates, and any other known or pertinent information. Based on the conditions assessment, budgets were provided for on-going care and maintenance, and restoration and conservation treatments were recommended.
