

Sts. Anne & Joachim Catholic Church

FARGO, ND

EverGreene designed this elaborate mural for a new church in Fargo, North Dakota. Incorporating iconography and stylistic elements specified by the client, our design included new stenciling, trompe l'oeil architectural elements, and narrative vignettes.

The creation of the new church and its art was an extensive project that required the collaboration of many talented groups and individuals. Our Liturgical and Devotional Committee was made up of parishioner volunteers who worked closely with Fr. Bachmeier and Fr. Duchscherer to make the parish's liturgical vision come to life in our new church.
