

St. Clare of Assisi

DANIEL ISLAND, SC

St. Clare of Assisi in Daniel Island, SC is an impressive new church built for the growing catholic community in the area. The church was designed by Franck & Lohsen architects in the Neo Gothic style with distinct allusions to the Basilica of Santa Chiara in Assisi, Italy. EverGreene was delighted to be involved in designing custom diaper patterns for the sanctuary and side niches within the church. We worked in collaboration with the church to design specific patterns with symbols representing St. Joseph, St. Mary, and St. Clare of Assisi.
