

Venetian Resort Hotel Casino

LAS VEGAS, NV

EverGreene recreated the essence of Old-World Venice for the Venetian Resort Hotel Casino in Las Vegas. Our services included original Baroque-inspired murals, trompe l'oeil ornament, and specialty finishes covering approximately 50,000 square-feet of ceilings and walls throughout this grand hotel. EverGreene also completed the design, construction, gilding, and installation of an Armillary Sphere.

The Venetian and EverGreene hold a continued partnership with work on their resort location in Macau, China.
