

## Waldorf Astoria Orlando

ORLANDO, FL

Waldorf Astoria Hotels & Resorts is the flagship brand of Hilton Worldwide—a collection of luxury hotels and resorts with the highest standards of facilities and service. One of its 30+ locations lies within Bonnet Creek Resort, which borders Walt Disney World in Orlando, Florida.

EverGreene worked with the Waldorf Astoria Orlando design team to develop an aesthetic and acoustical solution for a new hotel dome. In an acoustically challenging space, we created a beautiful work of art that simultaneously mitigated unnecessary noise. The process involved creating color renderings, mock-ups, and models prior to producing the dome mural on stretched and padded acoustical fabric. The dome design embraces the surrounding architecture for a harmonious solution to the noise problem.
