

EVERGREENE WALLCOVERING ADHESIVE & PRIMER RECOMMENDATIONS and USAGE

ADHESIVE	Description	Color	Notes
Roman Pro 732	Extra Strength Clay. PRO-732 is a high solids, commercial grade clay-based wallcovering adhesive with a thick, rich consistency. It is designed to spread easily with a roller. It is a high solids adhesive formulated for applications requiring low moisture.		
Roman Pro 774	Clay Strippable. PRO-774 is the preferred adhesive for large commercial jobs such as hotels, office buildings, and hospitals. It is designed to flow easily through pasting machines, and has maximum wet tack to hold the heaviest wallcoverings.		
Roman Eco 888	ECO-888 is a clear, strippable wallcovering adhesive – for use with lightweight to commercial weight wallcoverings. Dry strippable. For hanging most types and weights of wallcoverings, including commercial weight wallcoverings For best results, use in conjunction with ECO-988 Pigmented Wallcovering Primer. Maximum wet-tack Extended open-time. Class A Fire Rating (per ASTM E84)		Recommended for Metallic wallpaper.
Roman 234	ROMAN 234 Premium Clear Wallcovering Adhesive's exclusive formula allows you to create the perfect viscosity for your project. 234 Premium Clear is ideal for installing Type I, II and III wallcoverings. ROMAN 234 thins out when stirred. Mix by hand with a stir stick, a drill mixer, or with a paint shaker to achieve your desired consistency. 234 Premium Clear applies easily with a paint brush, roller, or pasting machine. 234 is strippable once fully dry.		For installing most types of wallpaper, including vinyl, non-woven, grasscloth, delicates, and more.
Roman PRO-838 Heavy Duty Clear	PRO-838 Heavy Duty Clear is a commercial grade wallcovering adhesive designed for contractors. PRO-838 provides excellent adhesion and can be used to install medium-weight to heavyweight wallcoverings. Do not use Roman PRO-838 Heavy Duty Clear for metallic wallcovering, due to its alkalinity. Alkaline adhesive can promote metal tarnishing of the metal leaf used in the wallpaper.		Use for EAA wallpaper and canvas, EXCEPT metallic
Pro 880 Ultra Clear Strippable	PRO-880 Ultra Clear is a premium, strippable wallcovering adhesive. It's ideal for hanging most lightweight, medium-weight, and heavyweight wallcoverings, and can be diluted for use with pre-pasted wallcoverings. PRO-880 applies easily with a roller, pasting machine, or brush.		Recommended for Metallic wallpaper.

WALLCOVERING PRIMER			
Roman Pro 999 (aka Rx-35)	Problem-solving Sealer/Primer . PRO-999 Rx-35 Sealer/Primer is the perfect primer for skim coats, spackling, residual paste, popcorn ceilings, contractors flat paint or mud joints. It dries with a slight residual tack, enhancing adhesion of wallpaper. Seals drywall , contractor's flat paint and old wallpaper paste residue Seals and locks down textured walls and popcorn ceilings Use as primer over skim coats, spackling or mud joints	Clear	Not recommended for Metallic wallpaper.
Roman Pro 935 (aka R-35)	Roman PRO-935 R-35 is the finest adhesion promoting clear acrylic wallcovering primer. Great for non-porous surfaces, such as ceramic tile, formica, and glass. Dries with permanent tack	Clear	For non-porous substrates only
Roman Eco 988	ECO-988 is a pigmented, water-based wallcovering primer – ideal for use in new construction and with permeable or micro-vented wallcoverings. For priming new bare drywall for wallcovering For best results, use in conjunction with ECO-888 Clear or ECO-788 Clay wallcovering adhesives.	White	Recommended for Metallic wallpaper.
